FORM J: CERTIFICATE OF INDEPENDENT BID DETERMINATION (MBD 9)

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

In such event, Bidder will supply municipality with all data collected in his possession and municipality reserves the right to offset any payment due to Bidder against the cost of appointing another person to fulfil the requirements of this tender. If the cause of delay is due to the municipality not supplying the Bidder with agreed data, or other delays caused by the municipality themselves, then in such event, the municipality shall not be entitled to enforce this clause.

4.3 RETENTION

6. VALUATION SUMMARY

6.1 The tender requires a valuation roll to be compiled in terms of section 34(b) of the Act together with the compilation of annual supplementary valuation rolls.

6.2 The following is an approximate summary of the number of entries appearing in the current Valuation roll:

CATEGORIES	Estimated number of properties
Residential properties	15 916
Industrial properties	138
Business properties	355
Agricultural properties	1589
Public service purpose (PSP)	16 155
Municipal properties	0
Public service infrastructure (PSI)	95
Public Benefit Organizations (PBO)	8

Place of worship	60
Vacant Stands	0
Mining	1
Property builds over more than one stand	0
TOTAL ESTIMATED NUMBER OF ENTRIES	34 317

Properties build over more than one stand must indicate the erf and portion numbers involved. Properties build over more than one erf must be valued pro rata so that each erf will reflect the value accordingly.

Example:

(Erf 1088) R 450,000.00 and (erf 1089) R 120,000.00. Take note that in some cases the main building (house) is on one erf and the other erf only have an outbuilding or garage on it.

Municipal properties estimate in above table includes vacant stands.

6.3. Currently some of the property erf numbers do not agree with the property address as it differs on the ground. The property numbers on the ground need to be aligned with the corresponding registered erf numbers according to the town map. Property erf numbers currently on the system indicate the property ground number instead of the erf number.

6.4 Bidder(s) shall base their tender on the estimated number of entries above. Upon submission of the certified valuation roll an adjustment based on the actual number of entries as reflected in the Property Register will be made and compared to the above estimate. **The tender price will then be adjusted pro rata on the difference of entries and the price will be calculated on the type of category relating to the entry under item 1.1 to 1.13 of Bill of quantities.**

6.5 Where a property has been valued in terms of its multiple use, each multiple use will count as a separate entry in the calculation of final entries and price. Bidder shall provide municipality with documented proof of the total number of entries contained in the property register and the municipality reserves the right to check, audit and verify such entries.

7. SUPPLEMENTARY VALUATIONS:

Supplementary valuation rolls will be compiled on an annual basis for the following periods:

- 1 July 2027 to 30 June 2028
- 1 July 2028 to 30 June 2029
- 1 July 2029 to 30 June 2030
